ELIGIBILITY

An interior or spatial design project must have been completed and opened to its intended audience between 1 January 2018 and July 2019 to be eligible for submission.

Designers, architects, creative studios and companies may enter themselves for the Designer of the Year, Emerging Designer of the Year, and Client of the Year award categories. Submissions are not open for the Lifetime Achievement Award.

Projects eligible for submission refers only to interiors or spatial designs including window displays, set designs, trade-fair stands, and digitally enhanced but location-specific indoor experiences.

Projects not eligible for submission include objects such as products, furniture, accessories, clothing, lighting, and works of art that are not part of an exhibition. Urban interventions, architectural façades, outdoor public art or lighting installations and outdoor playgrounds, are also not eligible for submission.

Projects that were nominated in the Frame Awards 2018 are not eligible for re-submission in the same Awards category. However, a project previously nominated in an Awards category may be submitted in a different category.

If you are submitting one project in multiple award categories, each additional entry incurs an additional submission fee, even though the inputted text and images can be duplicated for ease of submission.

Multiple entries may be submitted with a single payment transaction.
